

Soviet/Russian Tankmen

A stylized illustration of a Soviet tank crew member. The soldier is wearing a dark leather flight helmet with goggles resting on the forehead and a dark leather flight suit. He is holding binoculars to his eyes with his right hand. The background is a light yellowish-tan color with a large, faint, dark silhouette of a tank turret and gun barrel behind the soldier. The overall style is reminiscent of mid-20th-century propaganda art.

Вступительное слово

Представляю Вам третье издание серии "В зеркале масштаба 1/35". В отличие от двух предыдущих, оно посвящено не машинам, но людям. А именно фигуркам советских и российских танкистов. В обзор не включены фигурки танкового десанта, ибо по сути они - пехота. Вполне возможно, когда-нибудь в дальнейшем, они и будут добавлены.

Как и ранее материал формировался на форуме [Panzer35](#) при участии коллег. Должен отметить, что тема фигурок на этой площадке менее востребована, что объясняется его профилем, но менять место своей прописки мне не хочется. В перспективе я еще не раз планирую возвращаться в фигуристику.

Традиционно, материал изложен в алфавитной последовательности фирм, а внутри – по возрастанию товарных индексов. Принцип оформления также остался прежним. Текст синего цвета и картинки в синей рамке являются ссылками на внешние ресурсы. Если изделие есть на сайте производителя, то на неё указывает ссылка на товарном индексе. Следуя традиции сайта [Scalemates](#), старался привести изображение бокс-арта или упаковки. При возможности, указываю дату выпуска изделия или год первого найденного упоминания. В связи с небольшим объемом издания, посчитал излишним составление предметных указателей.

И этот каталог, я планирую поддерживать в актуальном состоянии. Буду благодарен за предоставление недостающей или дополнительной информации по приведенным изделиям, которую размещу в последующих версиях (по вашему желанию, могу и с указанием источника). Равно как и за замечания, предложения и пожелания по оформлению и подаче материала. Которые учту в дальнейшее работе. Всё это вы можете направить на мой адрес fromSalekhard@yandex.ru

PS. Изделия [Azimut Productions](#) по просьбе коллег в этом каталоге я указал, но всё равно хочу предупредить о нечистоплотности фирмы: брать деньги под заказ и на этом прерывать ВСЁ общение - верх цинизма. И хочу предупредить: не связывайтесь с Editions du Barbotin (minitracks на eBay) – явный жулик.

Обложка: плакат "Славна богатырями земля наша". Художник В.Говорков. 1941 год.

Introduction

I present to you the third edition of the series "In the mirror 1/35 scale". Unlike the previous two, it is not dedicated to machines, but to people. Namely the figures of Soviet and Russian tankmen. The review does not include tank troop figures, for in fact they are infantry. It is possible, someday in the future, they will be added.

As before, the material was formed at the [Panzer35](#) forum with the participation of colleagues. I should note that the topic of figures on this site is less in demand, which is explained by its profile, but I do not want to change the place of my registration. In the future, I'm planning to return to miniatures several times.

Traditionally,, the materials are presented in alphabetic sequence of companies, under which the item indexes go in ascending order. The blue text and pictures in the blue box are links to external resources. If the product is on the manufacturer's website, then it indicates a link to a commodity index.

Following traditions of [Scalemates](#) website, I was trying to provide a boxart or packaging image.

If possible, indicate the date of manufacture of the product or the year of the first mention found.

Due to the small volume of the publication, I considered it unnecessary to compile subject indexes.

I am planning to keep this catalog updated too. I will appreciate any missing or additional information on the presented models, which I shall include to the next versions (specifying the source, if you would like). Also, please make comments, suggestions, and requests in terms of layout and material presentation, which I will take into account for further work. Send all the feedback to my e-mail fromSalekhard@yandex.ru.

PS. Products Azimut Productions at the request of colleagues in this directory, I pointed out, but I still want to warn about the uncleanness of the firm: to take money under the order and on this interrupt ALL communication - the top of cynicism. And I want to warn: do not mess with the Editions du Barbotin (minitracks on eBay) - an obvious crook.

Cover: poster "Glorious heroes of our land." The artist V. Govorkov. 1941 year.

Предисловие ко второму изданию

Прошло почти 3 года с момента публикации первой версии этой китографии. В прошлом году, в связи с некорректным переездом хостинга изображений пришлось выпустить промежуточную версию с обновленными ссылками всех картинок. Именно это событие сподвигло меня на создание своего сайта и размещения там всех моих китографий.

Милости прошу на сайт "[...в зеркале 1/35 масштаба](#)".

Как я и обещал, я продолжаю отслеживать новинки по предметам уже выпущенных китографий. Эта версия хорошо прибавила в толщине, собственно говоря, это и послужило причиной выпуска: с 45 до 64 страниц, т.е. в полтора раза. Было 287 изделий от полусотни фирм, а стало 401 от 98 производителей.

Пользуйтесь, моделируйте.

А я продолжаю ждать, пока еще безрезультатно, предложения, пожелания, материалы и т.д. на адрес fromSalekhard@yandex.ru.

Preface to the second version

Almost 3 years have passed since the publication of the first version of this kitografii. Last year, due to the incorrect relocation of image hosting, I had to release an intermediate version with updated links of all images. This event inspired me to create my own website and posting there all my kitography.

Welcome to the website." [...in the mirror 1/35 scale](#)".

As I promised, I continue to keep track of new items on items already released kitografii. This version added well in thickness, in fact, this was the reason for the release: from 45 to 64 pages, i.e. 1½ times. There were 287 products from fifty companies, and 401 from 98 manufacturers.

And I continue to wait, for the time being to no avail, suggestions, requests, pictures, etc. to address fromSalekhard@yandex.ru.

CL-33
Russian Tank Officer
1941-42

Some of the fiercest armor battles of WW II were fought in the vastness of Russia. At first, the German army made short work of the Russian counter-parts. Heavy losses were inflicted time and time again. At this time, tank guns were of relatively small caliber and destruction was not always complete, giving the crews a chance to escape or surrender. As time went on, tank guns got bigger and more potent, fewer crews escaped. At the beginning of the war there was no distinction in the uniforms of Russians tanks crew, they wore the same shirts and trousers as the infantry. The one distinctive item the tanker wore was his well padded helmet. At first, they were made from leather but later, due to material shortages, were fashioned from black denim. This helmet has remained unchanged and is issued to Russian tankers today.

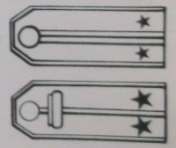

We recommend the use of Imrie/Risley Original Military Colors. For best results prime figure with I/R Metal Primer and then apply a thin coat of I/R #3 White before painting.

COLORS REQUIRED

- #1 Metal Primer
- #2 Primer Thinner
- #4 Black - Helmet
- #9 Flesh - Face, Hands
- #11 Khaki - Tunic
- #16 Olive - Drab
- #22 Dark Brown - Overcoat
- #24 Red Brown - Belt, Boots
- #26 Brass - Belt Buckle
